

Georgetown Village
9803 Montauk Avenue

This exciting home has been modernized in nearly every regard! Originally designed with three bedrooms on the main level, the re-design idea removed a wall to create the open concept that is so appealing today. The openness was further enhanced with a cutout to expose the new kitchen. The main level bath was completely renovated. The lower level was gutted and built out to include the third bedroom, a brand new bath, a family room, exercise area and a mudroom entrance foyer. WOW! Thank you for your interest!
