

This Georgian Colonial with English bond brick work on main exterior walls, jack arches over the window lintels, slate hip roof and copper gutters exudes the quality of a bygone era in home construction. Oak hardwoods, plaster walls, center hall entry with curved staircase to upper level, and marble fireplace surround continue this theme throughout the interior of this home. First floor has two notable expansions, including expansion and renovation of kitchen, as well as finishing of side porch into finished sun room with four insulated sliding glass doors, which welcome in gentle breezes! The interior continues to feature abundant air, light and space! The 11,873 square foot lot provides a generous, fenced rear yard, with curb cut and access from Onondaga Road. Front yard has a large circular driveway which eases ingress/egress and multi-car off street parking.

The Air conditioning compressor and Furnace were manufactured in 2012.

### A FEW WORDS ABOUT GLEN ECHO HEIGHTS...

The rolling terrain and the magnificent trees provide for a setting that is the equal of any community in Bethesda. But the community is more than brick and mortar. This is a community where people really do know their neighbors, where there is an intense pride in being part of a community. The homes are meticulously cared for and have weathered the decades gracefully. Nearby Wood Acres Elementary is adjacent to the 13 acre Park and was completely rebuilt brand new, re-opening in 2002. The school district of Walt Whitman High School and Thomas Pyle Middle School is one of the most sought after in the nation. The home is minutes from Glen Echo Park, C&O Canal and the Crescent Trail. And what's more – public transportation to the Friendship Heights Metro stop and downtown D.C. is at your doorstep.

Does it sound too good to be true? Ask anyone who lives in Glen Echo Heights. They will tell you how special it is!
